

Zydex[®]

**ULTRA DURABLE
MINERAL PAINTS**

PROTECTION, BONDED INTO THE WALL.

**Exterior and Interior
Paint Solutions**

DRIO | DRIO MAX | NIVO

THE SILICATE MINERAL PAINT

With **Si-O-Si** Technology

FIRST TIME IN INDIA

Zydex Silicate Mineral Paints are built on the ultra-strong Si-O-Si bond, the same bond found in stone.

Immune to UV rays and free radical damage, this mineral backbone gives unmatched durability and colour stability. Across the world, silicate-painted buildings have stood beautiful for over a century. Perfect for India's varied weather, Zydex Silicate Mineral Paints keep your facades vibrant and protected for decades.

With Si-O-Si Technology, bring home a finish that stays fresh, beautiful and built to last.

Drio

Exterior Paint with MineraTek

Drio is an everyday exterior emulsion paint, built for homeowners who want proven, worry-free protection without compromise.

Powered by MineraTek, a proprietary mineral technology, Drio offers best-in-class water repellency and excellent breathability. Drio's uniquely engineered hydrophobic pore structure allows trapped moisture to escape through evaporation, while preventing the capillary uptake of rainwater into the walls, helping keep them dry and protected all year round.

ENGINEERED FOR REAL-WORLD EXTERIORS

Waterproof

Hydrophobic mineral technology prevents wind-driven rainwater from entering the film.

Breathable

Allows moisture to escape, preventing dampness, peeling and fungal growth.

Anti-fungal Protection

Contains added antifungal agents with controlled release technology

SUITED TO EVERY EXTERIOR

- › Residential Exteriors
- › Commercial Buildings
- › High-Exposure & Coastal Facades
- › Renovation & Repainting Projects

AVAILABLE IN

1L, 4L & 20L

WARRANTY

on film integrity and fading.

Drio Max

Exterior Paint with MineraTek

Drio Max is an exterior emulsion paint with MineraTek, a proprietary mineral technology. It offers best-in-class water repellency and excellent breathability. Drio Max's uniquely engineered hydrophobic pore structure allows trapped moisture to escape easily through evaporation, while preventing the capillary uptake of rainwater into the walls, helping keep them dry all year round. Its advanced mineral formula delivers exceptional surface hardness, helping repel dust and keep walls cleaner for longer.

ENGINEERED FOR REAL-WORLD

Waterproof

Hydrophobic mineral technology prevents wind-driven rainwater from entering the film.

Breathable

Allows moisture to escape, preventing dampness, peeling and fungal growth.

Dust Repellent

Mineral character resists dirt pickup due to high hardness

SUITED TO EVERY EXTERIOR

- › Residential Exteriors
- › Commercial Buildings
- › High-Exposure & Coastal Facades
- › Renovation & Repainting Projects
